

Wisconsin Council of Churches

The WCC liaison position offers an opportunity to work with other Christian denominations on legislation in Wisconsin. I have had the opportunity to attend the annual convention and listen to some very excellent speakers, as well as engage in processing this information across denominations. I invite you to visit their website to see who they are

Working on the Public Life Committee has given me an opportunity to participate in the crafting of outreach to the Wisconsin legislature and to bring to LCWR9 the opportunity to work with WCC on various issues. The pluses of the role: the opportunities for networking, excellent education on justice issues in Wisconsin from a bit different perspective, the gift of interfaith engagement, the impact of being part of a faith coalition that is extensive.

The downside: It added more meetings to my calendar and since I attended things in person and they are located around the Madison area, it meant almost an entire day. Although at times I participated via conference calls.

I have held this role for a few years and this past year have monitored and passed on the messages not participating in the committee work or the annual meeting. I hope that there would be someone willing to assume the role that can bring fresh energy.

Susan Seeby, CSA
