

**FEEDBACK FORM FOR GLOBAL CONCERNS COMMITTEE
2020 LCWR FALL REGION MEETING**

In light of our larger global realities -- climate change, racism, forced migration, and the reality of COVID-19, what is ours to do now as women of the Gospel for Earth and for the women, men, and children who are deprived of their rights even in the midst of these pandemics?

Are there any insights from your discussion that you would like to share?

There was considerable consensus about the importance of using our collective voice and taking collaborative action in response to the issues of racism, climate change and forced migration.

Are there any specific actions that could be initiated by your region?

Possible actions that were suggested included the following:

- Drawing on our past experience of sponsoring billboards to promote anti-human trafficking efforts, sponsor a billboard campaign related to anti-racism and Black Lives Matter awareness;
 - Share actions of Sisters involved in anti-racism efforts;
 - Use congregation social media to promote anti-racism efforts;
- As congregations, if possible, offer micro-loans to area small businesses that employ or serve undocumented people;
- Develop creative ways to use our collective voice related to these intersecting issues.

(Form completed by Toni Harris OP; tharris@sinsinawa.org)
