

## **Social Justice—Possible Connection to Pursue?**

David Lippiatt in Sun Prairie, Wisconsin leads a mission on human trafficking called WE International, Inc.

WE International exists to address poverty and injustice issues in the developing world by giving hope to people who live in difficult, if not desperate, situations through empowering and sustainable programs. We are united in our mission by using a relational approach in how we work together and how we implement transformational development.

WE International provides ways for people to respond to poverty and injustice by facilitating economic development through micro-finance and entrepreneur training, education projects, and sustainable business development services. WE also responds to human rights by child labor advocacy initiatives, and anti-trafficking programs.

WE RESTORE - Sexual Based Violence and Human Trafficking

WE EMPOWER - Microfinance and Entrepreneurship Training

WE SUSTAIN - Animal Stock Sponsorship; A branch of WE Empower

WE EDUCATE - Child Sponsorship

WE CHALLENGE - Advocacy Trips
